NEWS OF THE WORLD.

Close of the Billiard Tournament.

JACOB SCHAFFER THE VICTOR.

A Mother Charged With Attempting to Kill Her Children to Gain Their Property.

[Special to the Herald by the Associated Press.

NEW YORK, March 13.—The International billiard match between Jacob Schaefer of this city and Maurice Vignaux of Paris, came to a termination this evening. The audience was large although the crowd was not as large as on the previous evening owing to the lead obtained by Schaefer over Vignaux which last night was 1128 points and thereby rendered hopeless Vignaux's chances to win. The spectators were rewarded, however, by seeing some of the prettiest billiard playing ever exhibited in this city. Vignaux made on his eighth inning his total score being 92, Schaefer 44 more and gave Vignaux a chance which he improved by making a neat run of 50, Schaefer for the second time during the game looked through an "O" and gave the Frenchman another chance, of which he availed himself, at the same time giving a fine exhibition of his art in brilliant all around the table shots. He counted each time with wonderful skill until he had bagged 55. The 50th shot was applauded on its merits as a draw, and the 51st followed. Then Schaefer made single and left the balls in position for a draw, which Vignaux secured and 23 more on the eleventh inning. Schaefer now had 358 to the Frenchman's 337 for twelve innings. Schaefer scored another single and Vignaux made 48, slipping up on a massé by a hair's breadth. Schaefer only got 10. Vignaux was playing well now, and made 41. In six consecutive innings he had scored 334 points, and he added 32 in the fifteenth inning. Schaefer made 8 on his fifteenth inning and 28 in the next. In his seventeenth he made 43, Vignaux made 6, and then counted a goose egg, Schaefer 8 and 29. Vignaux made 1 in the nineteenth, and Schaefer began again to play beautifully. He coaxed the balls along the upper line to 30, and then sent one around the table, bringing it back to within two inches of the other. He ran 45 before he stopped. He had now turned into his last 100 and stood 522, while Vignaux was 469. He added 78 to this in the ensuing three innings, while Schaefer was making 21. The score then stood: Vignaux 547, Schaefer 543. Vignaux added 34 to his score while Schaefer was making 9. He also made a run of 38 in his twenty-seventh inning and completed the score of 600 in the twenty-eighth. Appended is the score in full: Schaefer—600, 600, 600, 600, 600; total, 3000; average to-night, 21 12 28; grand average, 25 15-29. Vignaux—583, 243, 288, 239, 502; total, 1855; average to-night, 21 16-27; grand average, 16 3-23.

AN INHUMAN MOTHER.

It is Charged That She Tries to Starve Her Children.

SAN FRANCISCO, March 13.—Sensational developments in the hearing of the application by E. J. Dooley, superintendent of the Boys and Girls Aid Society, for letters of guardianship of the Treadwell children are attracting considerable attention. Dooley's application is based on the ground that the treatment of Mrs. Treadwell, the guardian of the children and who is under the influence of her brother Calvin P. Somers, has been of great cruelty and that Somers treatment of them has been of the most inhuman character. Mr. Treadwell, who died some months ago was a prominent lawyer of this city and left a large estate in trust for the children. The attempt, as shown by testimony, to make the children ill by starving them, is exciting much harsh comment. Mrs. Steiger, mother of Mrs. Treadwell and C. P. Somers, in her cross-examination to-day stated that she had never been legally married to Mr. Somers, the father of C. P. Somers, but that she had been deceived by her husband, who had the ceremony performed by an unauthorized person. She asked Mr. Dooley to join in the petition to have the children withdrawn from the guardianship of their mother, and confirmed all the charges made against the latter in the petition before the court. The extreme youth of the children and the amount of money involved surrounds the case with great interest.

The Prewett Case.

HOLLISTER, March 13.—Wells' Opera House was again crowded this afternoon to hear the close of Delmas' argument for the defense of Prewett. He continued the argument of this morning, striving to represent the character of Dr. Powers as none other than that of a fiend in human shape. He was most emphatic in his denunciation of the local and State press for publishing the details of the tragedy and trial. The testimony of witnesses for the prosecution was discussed, and to most of it were applied the epithets, "Falsehoods," "lies," etc. Delmas closed his argument at 3:45. Campbell makes the closing argument for the prosecution on Monday.

London News.

LONDON, March 13.—Mr. Phelps, American Minister, will present Mr. Frederick C. Penfield, United States Vice Consul General, at the levee of the Prince of Wales on Monday night.

Three thousand unemployed workingmen held a meeting at Hackney to-day. Red flags were displayed and inflammatory speeches were made by Champion and other socialist leaders. A large force of police, mounted and on foot, were present to preserve order. The unemployed workingmen of Manchester also held a meeting to-day for the purpose of making arrangements for a great labor demonstration which it is proposed to hold on Monday next.

Rate From Chicago to San Francisco.

CHICAGO, March 13.—There was another fall in passenger rates to the Pacific Coast to-day. In order to offset alleged underhand cutting by the Atchison, Topeka and Santa Fe Road, lines running from here to Council Bluffs reduced their rates to $7, rebated for that amount being paid San Francisco-bound passengers upon their arrival at Council Bluffs. This makes the first-class rate from Chicago to San Francisco $32.50, and emigrant rates $20. It is expected that to-morrow the Santa Fe Road will make these rates in connection with the lines running to Kansas City.

Miners Strike.

PITTSBURGH, March 13.—At a meeting of the miners of the Clearfield region at Tyrone, Pa., to-day, it was resolved to strike for an increase of ten cents per ton. The Clearfield district includes sixty mines, employing 5000 men, and is regarded as the pivotal branch of the entire soft coal regions. The miners have all quit work and the collieries are now closed. The action taken at to-day's meeting makes the strike general. It is estimated that 10,000 miners are engaged in the strike.

Army Notes.

WASHINGTON, March 13.—Major General Pope will be placed on the retired list next Tuesday.

It is said that General Terry, who was confirmed as Major General last Thursday, will be assigned to the command of the Division of the Atlantic with headquarters at Governor's Island, N. Y., and that the next Major General will be given command of the Division of the Pacific with headquarters at San Francisco.

ALL FOR LOVE.

A Hotel Clerk Kills a Woman and Shoots Himself.

ST. LOUIS, March 13.—A dispatch from Hot Springs, Ark., says: "This morning George D. Williams, clerk of the Sumpter Hotel, killed Mrs. Norris, a guest of the house, and then attempted to kill himself. It is alleged that an intimacy has for some time existed between Williams and Mrs. Norris, who was quite young and a very fashionable woman. Her alleged husband, a sporting man, claims to have discovered Williams last night in his wife's apartments, and the matter became public through the disturbance which ensued. Williams is a young man, very popular in society, and no stain on his character ever before existed. He fired only two shots, one of which penetrated the heart of his victim and the other his own head, just above the right temple. It however only fractured the skull, and the wound is not fatal. He is now in prison.

Washington Notes.

WASHINGTON, March 13.—The Ways and Means Committee to-day was devoted to the hearing of gentlemen interested in the wool industry. John T. Clark, wool grower and flock master of Pennsylvania, was the first speaker. After giving the history of the growth of the wool industry in his section of the country, he reviewed the condition of this industry under the various tariff acts. Under the act of 1867, the growers had fair living profits. The act of 1883 had injured the industry and in 1884 and 1885 sheep worth $2 or $3 each were sold at any price, 10, 25 or 50 cents, and many farmers had abandoned wool growing. The domestic grower could not grow wool in competition with the English grower on Australian lands. If the industry was broken down at home special dealers would control the market and consumers would have to pay more for their clothes. Growers did not ask for a prohibiting tariff, but recognizing that the act of 1883 was a step backward, they asked the restoration of the rates of 1867.

Mr. Reed protested against tariff agitation by a revision of the tariff as a disturbance of business and a postponement of the repose needed for a recovery from the great industrial depression. The passage of the bill, he said, inflict a blow upon the manufacturers which would inevitably recoil upon the interests of domestic wool productions and in the destruction of its home market.

Second Controller Maynard has settled an important question rising from the act of April 22, 1872, which directs that every volunteer soldier who enlisted for three years prior to July 22, 1861, under the President's proclamation of May 3, 1861, and orders of the War Department, issued in pursuance thereof, and was actually mustered into service for three years before August 6, 1861, and who was honorably discharged, shall be paid the full bounty of $100, unless already paid. The Second Comptroller holds that said bounty is payable to the heirs of every deceased soldier who if living would be entitled thereto, whether he died before or after the passage of the act.

A New Invention.

WASHINGTON, March 13.—The *Post* says that Mr. Thomas A. Edison has filed an application for a patent for his invention of telegraphing from a moving train. Last October Lucius J. Phelps, of New York, obtained quietly from the patent office, and without any newspaper note, only a patent for telegraphing from a train by indication. His method is not quite the same as Mr. Edison's, for the latter telegraphs from the roof of the car to the wire upon the pole, while Mr. Phelps proposes to lay a wire along the track between the two rails, and the telegraphing is from the bottom of the car. The principle, however, is the same, and is broadly covered by Mr. Phelps' patent.

Should be Lynched.

KANSAS CITY, March 13.—A twelve-year-old daughter of Charles Morah, a farmer, living near Quinda, five miles north of Wyandotte, Kansas, was outraged while on the way to the former place this afternoon by a negro about 18 years of age. The brute used a knife to accomplish his purpose. The girl managed to drag herself home and gave a description of her assailant. The entire neighborhood is out now in search of him. He will probably be lynched if caught.

The End of the War Approaching.

NEW YORK, March 13.—While nothing definite is known as to what has been done towards a compromise of the Trans-Continental fight, it is questioned that some kind of an understanding has been arrived at. This is evinced by the action of general agents at both ends of the system. It is generally agreed that while rates will be much higher than they now are, they will never be as high as they were before the war.

A Race.

SAN FRANCISCO, March 13.—There was a well contested race at Bay District track this afternoon, between Empress, to wagon, and Barbara, Willie S., Hayward, Chief and Democrat, all to harness, in which Willie S. come off victorious, winning the third, fifth and sixth heats; the first and second heats were won by Barbara, and the fourth by Empress. The best time made was by Barbara, 2:30½.

The Lowest Rates.

SAN FRANCISCO, March 13.—The lowest passenger rates yet made during the railroad war were made by the A. & P. road to-day. On limited tickets the rates are, Chicago $16, New York $31—a change was also made in emigrant tickets. The purchaser is allowed a rebate on the latter which makes the rate to Chicago fifteen dollars, New York twenty-six.

Anarchists in France.

LYONS, March 13.—The city was placarded to-night with posters invoking the people to rise up armed on the 18th day of March and pillage and massacre Bourjoise. A man named Pilase who is pescribed by the police as a dangerous anarchist has been arrested. In his pockets were found several revolvers and a number of dynamite cartridges.

Arrested for Driving out Chinese.

SACRAMENTO, March 13.—The men who were arrested at Nicolaus yesterday by the United States Marshal for driving out the Chinese, were up before United States Commissioner Bugby today. No witnesses could be produced and the case was postponed. Twenty-one prisoners were admitted to bail in the sum of $1000 each. Three were released on bail.

Chinese Boycotted in the East.

NEW YORK, March 13.—The workmen of Elizabeth, N. J., a manufacturing city ten miles from here, have distributed thousands of circulars among the citizens of that place, asking them in the name of united labor to discontinue patronizing Chinese laundries in that city and to give their work to deserving widows of workmen.

Meeting of Presidents.

SAN FRANCISCO, March 13.—A telegram received at the office of the Southern Pacific Railroad to-day states that a meeting of the Presidents of the transcontinental roads had been arranged for to-morrow in New York, when an attempt will be made to reach some conclusion satisfactory to all interests represented.

A French Loan.

PARIS, March 13.—The French Government has decided to issue a loan of one thousand million of francs to consolidate the six hundred and eighteen millions of six-year bonds now outstanding and to redeem the floating debt.

HORRIBLE AFFAIR.

Daring Robbery of an Express Car.

THE MESSENGER MURDERED.

Twenty-Five Thousand Dollars Secured by the Robbers—Details of the Tragedy.

[Special to the Herald by the Associated Press.

JOLIET, Ill., March 13.—One of the most daring and bloody express robberies ever perpetrated in Illinois, occurred on the Chicago, Rock Island and Pacific west-bound express last night, between this place and Morris. Masked robbers rapped on the express car door, and informed the messenger, Kellogg Nichols, that the baggageman wanted to get in at the rear. Nichols opened the express car door, and the desperadoes entered. Being confronted by the murderous villains, the messenger fought for his life and the property in his trust. The interior of the express car shows that he fought the robbers from one end of the car to the other, but the blows that they rained on his head with an iron poker forced him to succumb, and he was left dead in the car.

The thieves rifled his pockets for the keys to the safe, which they robbed of all its contents, variously estimated at from $20,000 to $25,000. Checks and valuable packages not containing money, they left scattered about the floor.

Baggageman N. H. Watt, who is a young man about 24 years of age, told the following story in response to various questions:

"I was sitting in the car; chains were on the door which went back to train, and the door in the front part of the car was not locked, as the car ahead was the one in which was the messenger. He was checking up his runs. I sat on a trunk. Just after they had whistled for Minooka I heard a sort of scraping sound on the floor, but not much, just as though some one had rubbed his foot on the floor. Before I could turn around a big gun was poked over my shoulder and a man said: 'You open your mouth or move an inch and I'll blow your brains out.' I could only see the lower part of his face. It was covered with some cloth or paper. I sat looking toward the back part of the car, toward the rear end of the train, when I heard some one at the safe, which was behind me, and could hear the rustling and tearing of papers. This went on for a while and the man who stood over me said to me: 'If you move or stir a hand or foot before the train stops at Morris that man up there will blow the top of your head off.' I rolled my eyes up and there was a man's hand stuck through the ventilator with a gun in it. In about five minutes, as it seemed to me, the train slowed up for Morris, and I looked up and the hand was gone, and I jumped out of the car. I heard no noise nor any shooting. The first I heard was, as I said, a man speaking to me, and at the same time putting a gun over my shoulder. They must have gotten into Nichols' car first and got the key to the safe before they came to me."

Wages No Object.

ST. LOUIS, March 13.—Superintendent Dickinson, who has charge of all the terminal facilities here, including the bridge and tunnel and the Missouri Pacific yards, has offered his men who are on a strike, a material increase of wages but they have refused to return to work until permitted to do so by the Knights of Labor.

The Strike in Texas.

BONHAM, Texas, March 13.—U. S. Marshal Cabell arrived to-day with ten deputies, and in a few hours he had a freight train manned and dispatched, and will have everything arranged by to-morrow for the resumption of general traffic. The people are delighted at the turn affairs have taken.

A Trip to Fatherland.

Mr. Jerry Illich, one of the most enterprising restaurateurs in the State of California, started yesterday on a visit of three months to his childhood's home on the eastern shore of the Adriatic sea, in the ancient land of Dalmatia. Mr. Illich will visit London, Paris, Vienna, Milan, Rome and Trieste, and the beautiful mountains of Herzegovina, Istria and Bosnia. As Jerry speaks all the languages of Europe he will have no difficulty in having a delightful time wherever he goes. Mr. Illich belongs to an old historic family whose bones have been laid on many a battle field where the Turk tried in vain for centuries to conquer the brave mountaineers of Slavonia. After repelling the Turk the Slavonians have had many a bloody battle with the Austrians in which the Hapsburgers came out second best and the brave Dalmatians held their lands and homes in triumph.

Jerry is proud of the deeds of his ancestors, and looks forward exultingly to a visit to his native land. It is pleasant to state that during his residence of ten years in Los Angeles Jerry has prospered in basket and store, and goes on his travels with a full purse and a good bank account. He has been the impersonation of honor during his residence in this city, and has gathered around him a host of friends, who wish him a pleasant journey hence and a safe return to his adopted country.

Cure For Piles.

Piles are often preceded by a sense of weight in the back, loins and lower part of the abdomen causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm is a very common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address the Dr. Bosanko Medicine Co., Piqua, Ohio. Sold by C. F. Heinzeman, agent, Los Angeles.

"The Sister's Influence Upon the Brothers."

SAN GABRIEL ORANGES

Compared With the Best in the World and Pronounced Superior.

From a letter received in this city from Buffalo, N. Y., the HERALD is permitted to make the following extract:

"Dr. Cary, as you well know, has traveled extensively, and is a fruit sharp. He says: 'I have been testing at my own table some California orange grown by Col. J. R. Dobbins, at San Gabriel, of the Navel variety, and I am free to confess that they are superior in flavor and handsomer than any I ever saw or tasted in the orange groves I have visited in Florida, Spain, Italy or the Holy Land.'"

This endorsement is a good one for Southern California, coming from the source it does. The HERALD always believed in the bright future of our oranges. At the same time the culture of the citrus tree must be thorough and intelligent. Col. Dobbins' oranges are noted for their sweetness and his packing always commands good prices. Every year he succeeds in securing remunerative prices, his oranges always selling for a top price even when the markets were full to a glut.

On the Wing.

February 28, 1886.

We shall be sorry to separate for we have spent a happy week together. Mr. Davison has spared no pains to make us as comfortable as possible, and we have received courteous treatment from all connected with the road.

We spent one day in Sacramento and another in Salt Lake City, visiting principal points of in both cities.

The thrilling ride through Black Canon and over Marshall Pass—don't ask us to describe it please. It is a memory to carry through life. We are looking forward to the Grand Canon of the Arkansas as a crowning glory of the trip.

We have had a delightful trip thus far and we hope that all our friends may sometime enjoy a similar excursion. To all who are going east this year we wouldsay: If you want to ride in the glories of nature, if you desire a pleasant, comfortable company and the best of treatment do not fail to come with a Baker and Davison excursion. Railroad Notes.

The A. & P. will soon have a fine hotel at Bristow (Waterman).

The trains on the S. P. lines were both late yesterday. They passed here at about 4:30 P. M.

Mr. H. B. Wilkins, ticket agent of the C. S. R'y, went to San Diego yesterday and will return Monday.

Mr. John L. Truslow, General Western Passenger Agent of the A., T. & S. F. R'y, is expected here to-morrow.

This week regular passenger trains will be run from the terminus of the Riverside, Santa Ana & Los Angeles R'y to Colton.

The "yard" at the new depot is jammed full of cars, all of which cars are full of freight. Immense strings of cars come in at all hours of the day.

By telegram elsewhere in the HERALD to-day will be found a dispatch to the effect that the railroad Presidents in New York have met to arrange the war of rates.

It is not likely that any compromise will be reached soon between the railroads as the S. P. Company is reported to be making contracts at current rates for 20 days.

The Sonora Railroad (Limited) of Mexico carried last year 47,000 passengers. For the same time the freight traffic was 33,800 tons over that line. This is a good business.

Freight rates to and from Chicago to Los Angeles are: In carload lots and more, 30 cents per hundred; small lots, 37½ cents. It is said on lots of several cars a close bargainer could get a shave off of even these low rates.

The surveyors of the Santa Monica Railway have crossed the S. P. track at Ballona, just where the county road crosses that track near La Ballona station. The terminus is finally fixed at South Santa Monica, where the old Juan Bernard wharf is.

The extension of the L. A. & S. G. V. R'y will be commenced in about ten days from Lamanda Park to the new town of Baldwin. The bridges are mostly made, the grading done, and it will take short time to lay the ties and iron. The road is expected to be completed to San Bernardino by July or August.

General E. E. Hewitt said yesterday, in reference to traffic matters over the S. P. lines: "Things are red hot. We have more than we can take care of. Well, as to making money, we have asked nothing from any one and are not going to ask anything. There is no fear of our being bankrupt, so long as our splendid local business is retained, and no one can touch that. Our through business is all right too."

Captain Will Hammel is now a full-fledged Deputy Sheriff, and gives evidence of developing into a very efficient "limb of the law."

W. G. Kinsell, one of the proprietors of the Santa Barbara *Press*, is paying Los Angeles a visit. The HERALD acknowledges a pleasant call.

Mr. and Mrs. Abbot Kinney were in town yesterday. Mrs. Kinney went to the Tabernacle to test its acoustic properties, and was well satisfied with the same.

Hanlon's Fantasma Company, consisting of A. J. Pinkstone, N. B. Elkeles, Geo. Cutting, R. P. Allen, John Althrop and James B. Quin, of San Francisco, are stopping at the Stevenson House.

Three or four of the younger generation of Marders, the great type founders of Chicago, have been spending a week in Los Angeles. They express unqualified admiration of this section. They are cousins of Mrs. W. R. Huff, of this city.

SAPOLIO

If you want a clean, cosy home.

Have you seen the celebrated stud General Crook, recently purchased in San Francisco? He is one of the largest trotting stallions on the Pacific Coast. For his pedigree and wonderful trotting qualities the following letters and notes will explain themselves. Mr. P. J. Martin, after complimenting the horse for his fine disposition and a stylish trotter, said that the horse had unquestionably cost Mr. E. Martin over $10,000, and that it was like parting with an old friend to see him go away. He then wrote the following pedigree, which undoubtedly is correct, because Mr. M. has known the animal ever since he was a colt, and well knew the owners of his dam and sire:

SAN FRANCISCO, February 15, 1886.

The horse Gen. Crook was sired by Champion Knox out of English Kitty. English Kitty was imported by Spaulding Bros., of Boston. She was said to be about seven-eighths thoroughbred and a natural trotter. She was an old campaigner in the New England States and a great favorite, being called "Old Railroad," from her great bottom.

Both the sire of Gen. Crook and his dam, English Kitty, were brought out from Maine by James Bracket, of Cañon City, Oregon.

I have known Gen. Crook since he was a colt, and have owned him several years. I know him to be a fast trotter and consider him without any superior as a foal-getter and all-purpose horse. P. J. MARTIN.

SAN FRANCISCO, February 16, 1886.

General Crook is eight years old, sired by Champion Knox; he by General Knox; is a rich, dark chestnut in color, has a fine heavy mane and tail, stands 16¼ hands high, weighs 1300 pounds, is a very stylish mover and has a fine disposition. I have known this horse for about two years, and I take pleasure in saying that as a stock horse, for trotters, roadsters, carriage and all-purpose horses I consider him without a superior anywhere.

C. S. CRITTENDEN, Club Stables.

SAN FRANCISCO, February 16, 1886.

MR. G. J. GRIFFITH—Dear Sir: In answer to your request for a statement of what I know about your stallion, "General Crook," lately bought by you, I will say that he was placed in my hands when he was a two-year old by his owner, Mr. P. J. Martin, who paid a large price for him at that age. I broke him and gave him a very little training as a three-year-old, and won the three-year-old trotting premium at the Oregon State Fair. I never drove a colt that trotted as fast with so little handling as he did, and his gait was perfect. I had no experience with him after that, but I am reliably informed that he has trotted mil s better than 2:30. From what I know of the horse and his stock I think he will prove to be one of the most valuable horses for stud purposes on the Pacific Coast. Very truly yours,

L. D. LINDSEY.

WHAT JUDGE HAWORTH SAYS.

SAN FRANCISCO, February 16, 1886.

I have known General Crook for two years and consider him one of the best stock stallions on the Coast. JAS. HAWORTH.

SAN FRANCISCO, February 16, 1886.

I have seen General Crook worked frequently on this track and timed him trotting a mile in 2:34. I consider him one of the best stock stallions on the Coast.

J. R. DICKEY.

What Hickok, the great trainer of St. Julien, says:

I have seen General Crook work on the San Francisco track, and timed him trot a mile in 2:34½, and believe he will make a splendid stock horse. O. A. HICKOK.

SAN FRANCISCO, February 15, 1886.—I have seen General Crook trot a mile in 2:28½, and a quarter of a mile in 34 seconds.

EDWARD WALSHE.

I have frequently seen General Crook worked on the San Francisco track. Timed him trot a quarter in 34 seconds, a half in 1:11 and a mile in 2:27.

CHAUNCEY CAIN.

A 2:12 GAIT.

I have timed General Crook trot a quarter of a mile in 33 seconds.

Respectfully, etc.,
H. McCANN.

After looking at twenty-two stallions in San Francisco and Oakland several friends and myself consider General Crook by a great percentage to be the best horse—having the largest bone, the largest and most elegant form, style and color, and to my idea the best pedigreed horse for all purposes that I have ever seen anywhere.

The animal covered only two mares in his life—two of his get when but two years old weighed 1100 pounds each, and from small mares.

Having bought the horse for a very reasonable price, I can afford to stand him for the first season in Los Angeles for the very low price of $30. A limited number of good mares may be arranged for by first addressing G. J. GRIFFITH, Los Feliz Rancho, or 21 Ducommun Block, Los Angeles.

CONSUMPTION.

The earlier symptoms of this disease are a sense of weariness upon little exertion, a disposition to remain passive and idle, a peculiar sensitiveness to the effects of cold and a shortness of breath upon moving quickly or ascending a hill or stairs, a slight hacking cough, with or without expectoration, flying pains throughout the chest or back, or under the shoulder blades. The symptoms are worse towards or during the night, slight fever in the afternoon, cold feet and hands, and in many cases blue lividity of the lips and roots of the finger nails.

The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectorations of yellow pus from the ulcers or cavities in the lungs, with or without a depression of the chest, increasing weakness and at last a closing up of the air passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the mucus from the lungs.

Heretofore the treatment of consumption has been very unsatisfactory, alike to both the physicians and their patients, but luckily since the discovery of the Aerean system of practice a few years ago, thousands of cases have been completely cured, where had it not been for this system of practice, utter failure to combat the evils of the disease would have continued up to the present time. This system is recommended by the highest authorities, both in Europe and America. By this means we are enabled to dissolve the hardened mucus in the lungs, ease the cough, facilitate expectoration contract and heal ulcers and cavities after all hope of cure by the ordinary method is past. Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever. The greater portion of consumption cases in the first stage can be radically cured.

Coast Defenses Locally Considered.

A great deal is being said now about coast defenses. Much is being written about the exposed and defenseless condition of New York, San Francisco, New Orleans, and other large ports. Samuel J. Tilden a few weeks ago wrote a letter to Speaker Carlisle in which he pointed out that over five thousands of millions of property lies at the mercy of any hostile fleet in five cities which he mentioned. Since then measures have been introduced into Congress which, if carried out, will to some extent provide against the dangers pointed to by him. In this connection it may be suggested that the whole of Southern California remains absolutely unprotected in case a foreign war should suddenly arise. There are a dozen points where a hostile force might land and march unopposed to ravage our towns and cities. Of course the probability of a foreign invasion now appears very remote, but the unexpected frequently occurs, and it is but common prudence as recognized and practiced by all civilized nations in time of peace to fortify and render secure the exposed positions on our coast and frontiers. Our central government should see to it that this important section of the common country is not overlooked in the matter of coast defenses.

A FEW days ago Congressman Long, of Massachusetts, presented a petition to the House of Representatives from the Boston preachers' meeting of the Methodist church, stating that "the most flagrant and grievous outrages have been perpetrated upon the Chinese in Wyoming and Washington Territories, and the States of Oregon and California." The petition states that "these outrages have disgraced our country in the eyes of the civilized world, and subjected it to the just judgment of a righteous God." The petition calls upon Congress to "deal quickly and sternly with all people who are engaged in driving Chinese out of towns, villages and cities."

This terrible malediction might be more frightening if it were true. Notwithstanding the saintly character of the petitioners, there have been no outrages upon Chinese in California since the present agitation began. With no intention of profanity, would it not be well for our Boston friends of the cloth to let the Almighty speak for Himself, and not pass judgment for Him in advance—even upon Californians? It also occurs to us that we once remember reading a sentiment that ran something like this: "Judge not, that ye be not judged."

THE first year of Democratic administration of national affairs has passed. Despite the spiteful criticism of malignant partisans or disappointed place-hunters, what honest, truthful American is there who will not admit that the past official year has been one of honor and good government to the Republic? No great disaster of any kind has befallen the people, the credit of the nation is unimpaired, and the laws have been faithfully, honestly and impartially enforced. There is so little to find fault with in the administration that calumny degenerates into petty spite in assailing it. It is true that many Democrats, as well as members of the opposition, are not in accord with the President and his Cabinet on the silver question and some other matters of public policy, but honest errors of judgment as to the proper course to pursue are not crimes or sins. The American people can well be satisfied with the management of affairs by President Cleveland and his Cabinet. History will give the first year of Democratic administration a high and noble position on its pages.

WE see it announced that W. D. Paxton is to build a million dollar hotel at Omaha. We wish we were able to announce that some one would build such a hotel here. Los Angeles is a far more important point than Omaha, which at best is only a "half-way place." This is the objective of travelers and excursions from all over the Union—the Mecca of health and pleasure seekers from all directions. Why we cannot boast a hotel worthy of a fifth-rate town in size and adaptation to modern requirements, is one of those inscrutable conditions that does not at all reflect to the credit of either the intelligence or enterprise of our people. The necessities of this city demand a suitable hotel building, and the sooner it is built the better it will be for the name, fame and business of Los Angeles. We ought at least to be able to keep abreast of Omaha in enterprise.

THE Anti-Chinese Convention at Sacramento will do a great deal towards awakening interest in the East in our cause against the Mongols, and will strengthen the hands of our delegation in Congress in the up-hill contest that is before them in endeavoring to secure the passage of an effective exclusion act. It contained many of the ablest men in California, who have been prominent as leaders of thought and action in the State for years, and their utterances will command respect.

IT is stated that at the beginning of this century there were only thirty thousand Jews in the United States. Now there are nearly one million. This is a remarkable increase. And owing to the intelligence and wealth of the Hebrews, they relatively exert an influence in comparison with other elements of our population far in excess of their numbers. Commercially, socially, morally and intellectually the Hebrews are an important component part of the American public.

THE bottom would seem to have been about reached in the railroad rate war when the fare from San Francisco to New York, even by "emigrant train," is down to $26, as announced in our dispatches this morning. From ocean to ocean by any sort of conveyance for $26 is considerably different from the days when it cost the Argonauts a fortune to make the voyage "around the horn," under terrible privations, lasting months, or the still lengthier and more arduous "voyage" across the plains in a fleet of ox wagons.

FOR some time past the prospects of a completion of the de Lesseps' Panama Canal have been in great doubt. But since the visit of its founder to Panama, public confidence appears to have been considerably restored as to the ultimate success of the undertaking. The chances now seem to be that the Canal will be completed.

Not Symptoms, But the Disease.

It would seem to be a truth appreciable by all and especially by professors of the healing art, that to remove the disease, not to alleviate its symptoms should be the chief aim of medication. Yet in how many instances do we see this truth admitted in theory, ignored in practice. The reason that Hostetter's Stomach Bitters is successful in so many cases, with which remedies previously tried were inadequate to cope, is attributable to the fact that it is a medicine which reaches and removes the causes of the various maladies to which it is adapted. Indigestion, fever and ague, liver complaint, gout, rheumatism, disorder of the bowels, urinary affections and other affections are not palliated merely but rooted out by it. It goes to the fountain head. It is really, not nominally, a radical remedy, and it endows the system with an amount of vigor which is the best protection against disease.

Electro-Magnetism, the New Means of Cure.

Dr. E. Robbins' Electro-Magnetic Institute, corner First and Spring streets, entrance on First street, is now fitted up, at considerable expense, with everything that is necessary to cure chronic and so-called incurable diseases, by the finest electrical apparatuses in the world. Turkish and Russian baths; also electric sulphur baths. Dr. Robbins has had several years' experience in the Australian colonies, San Francisco, Salt Lake City, Denver and three years in Los Angeles, and hundreds of leading citizens can testify to the wonderful effects of electricity in curing cases of chronic diseases when all else had failed, and therefore all persons suffering should try this new remedy before abandoning all hope. After every treatment the patients are treated with the Massage treatment, by persons of their own sex. The Doctor diagnoses disease without explanation from the patient, free of charge. His office hours are 8 till 12, 1 to 5.

There are a few Druggists

who care more to make a large profit on a worthless article than to wait for the prosperity that ultimately results from honest dealing. These are the men who, when asked for a "Benson's Capcine Plaster," will recommend some cheap and trashy substitute or imitation, saying it is "just as good." Sometimes they will do up and sell the miserable imitation without remark, allowing the customer to suppose he has Benson's. If the valueless plaster is returned, Cheap John will say he made a mistake:—if not, he has done a good stroke of business. The public are cautioned against John and all his ilk. Buy of respectable druggists only. The genuine Benson's plaster has the "Three Seals" trademark and the word "Capcine," cut in the center.

The Funeral of Senator Miller.

CEREMONIES AT WASHINGTON.

The Remains Start for California Accompanied by Committees of the House and Senate.

Special to the Herald by Associated Press.

WASHINGTON, March 13.—The usual arrangements for the accommodation of an unusual throng upon the floor of the Senate Chamber were completed early this morning, but aside from the large additional number of chairs brought in for the purpose and the somber draping of the chair of the deceased, the hall wore its accustomed appearance. Before 11 o'clock great crowds had gathered about all of the gallery doors and awaited in lines their opening, a half hour later, when every gallery seat was taken at once. At the usual hour the President *pro tem.* entered the Chamber, accompanied by Chaplain Dr. Huntley, and ascended to the chair. At the tap of the gavel the Senators who had assembled in the cloak rooms filed out and were conducted to seats upon the left of the chair. All remained standing, and every head was bowed during the prayer. The chair announced the order of the day to be the funeral ceremonies of Hon John F. Miller, late Senator from California. The central doors were now opened by ushers, and the venerable door-keeper, wearing over his shoulder a broad white sash, walked up the central aisle and solemnly announced, "The House of Representatives." The Senators rose at the tap of the gavel, and remained standing until the members of the House had been seated.

Again the doors swung open and the assemblage arose to receive the Supreme Court of the United States, who came clad in their robes of black silk, and were guided to seats reserved for them in the front row upon the right of the Chair.

With short intervals of waiting, the Diplomatic Corps, and the President of the United States and his Cabinet, were in turn announced and conducted to the places reserved for them.

The funeral cortege came unannounced and upon its appearance all upon the floor and in the galleries arose and remained standing in reverent silence as the mournful procession made its slow way down the central aisle. The cortege consisted of the sergeant-at-arms, the committees of the two houses, which are to accompany the remains to their place of burial honorary pall bearers and a committee of the Loyal Legion—the casket, almost concealed by floral design, was borne by eight Capital policemen and placed upon the forms prepared to receive it in the centre of the chamber. The widow, daughter and near friends of the deceased were escorted to their places in front and to the right of the chair.

On the conclusion of the religious services the President pro tempore of the Senate said: "The Senate has consigned to an officer of this body and a committee of its members the custody of the mortal remains of our honored friend and brother to conduct them to his western home and leave them with the friends who have loved and honored him, to pay the last tribute of respect to his memory. The Senate as a body will also attend to the station."

The Senate then adjourned and the procession having been formed as prearranged, moved to the music of dirges by the Marine Band out through the rotunda and to the depot.

The Tiburon Collision.

SAN FRANCISCO, March 13.—The Government Inspectors to-day found Captain David Van Pelt, the pilot who was in command of the steamer Tiburon at the time of her collision with the San Rafael, last January, responsible for the collision and revoked his license as master and pilot of steam vessels. Captain McKenzie, of the San Rafael, was exonerated.

DAY DISPATCHES.

JOLIET, Ill, March 13.—One of the most daring and bloody express robberies ever perpetrated in Illinois occurred on the Chicago, Rock Island and Pacific west-bound express last night, between this place and Morris. Masked robbers rapped on the express car door and informed the messenger, Kellogg Nichols, that the baggageman wanted to get in at the rear. Nichols opened the express car door and the desperadoes entered. Being confronted by the murderous villains, the messenger fought for his life and the property in his trust. The interior of the car shows that he fought the robbers from one end of the car to the other, but the blows they rained on his head with an iron poker forced him to succumb, and he was left dead in the car. The thieves rifled his pockets for the keys to the safe, which they robbed of all its contents, variously estimated at from $20,000 to $25,000. Checks and valuable packages not containing money they left scattered about the floor.

Dr. Bowers' Trial.

SAN FRANCISCO, March 13.—The trial of Dr. J. Milton Bowers, who is accused of having murdered his wife by repeated doses of arsenic, is beginning to attract public attention. The supposition is that he poisoned his wife to obtain the insurance on her life, amounting to $17,000, the policies all being in his favor. Bowers treated his wife in a most brutal manner.

T. F Barrett, a reporter for the *Examiner*, testified that in an interview with Dr. Bowers the latter stated that his wife was in the habit of taking drugs to prevent child-birth.

Coroner O'Donnell testified that the first intimation of Mrs. Bower's death was from an anonymous letter addressed to him after the inquest was over. Bowers promised to keep the remains in a vault in case they were required for an autopsy, but instead of doing so he had them buried. The court adjourned until Monday morning.

Charges Dismissed.

SAN FRANCISCO, March 13.—United States Commissioner Sawyer has dismissed the charge against Capt. Brough and Stewart Follet, of the Australia. The Captain and Steward were charged with aiding and abetting Chinese in unlawfully landing on the last trip of the vessel to this port. The reason for the dismissal was that there was not sufficient evidence that either of the officers knew or aided the landing of the Mongols.

Colonel Ayers Installed.

SAN FRANCISCO, March 13.—Colonel Ira Ayers has been formally installed as special agent of the Customs Revenue Service on the Pacific Coast to succeed Mr. Evans. Colonel Ayers was transferred from New York to this city by order of Secretary Manning.

An Unfounded Rumor.

SAN FRANCISCO, March 13.—A report is flying about the city that Joseph P. Hoge, father-in-law of Mr. Delmas, has been offered the vacant Senatorship by Governor Stoneman, but has declined. There does not appear to be any foundation for the statement.

The Prohibitionists.

SAN FRANCISCO, March 13.—The executive committee of the California Prohibition party has decided to call a State Convention, to be held in Sacramento on May 12th, for the purpose of nominating a ticket for State and Congressional officers.

An Orphanage Burned.

In Time of Peace Prepare For War.

Scarcely any doubt exists in the minds of scientific men about the appearance of cholera in this country another season. The extent and virulence of the disease will depend entirely upon the sanitary condition of the country and the physical condition of the people. Persons in a perfectly healthy condition have little to fear from its approach. Dr. Koch, of Berlin, in his recent writings upon the subject, says: "Under ordinary circumstances, the bacilli, introduced by the mouth, are destroyed in the stomach, but given a derangement of this organ due to errors of diet or other causes, and the bacillus is enabled to escape the action of the acid gastric juice and to reach the alkaline intestinal fluid, where it proliferates, sets up irritation, diarrhea and all the symptoms of choleraic seizure." De Haven's Dyspepsia Cure is a remedy that supplies the acid that is wanting in the digestive juices of a deranged stomach. For sale at Littleboy's drug store.

USE QUEEN LILY SOAP.

Guaranteed to wash without rubbing. That

Queen Lily Soap

Has extraordinary merits and is in good repute with the public is, that it is so extensively imitated and counterfeited.

These counterfeits resemble the Queen Lily Soap in appearance and style of packing only. They lack the purity and general excellence of the genuine.

This notice is necessary, as vilely injurious and dangerous imitations, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they pay a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap. The price, compared to the quantity and the size of the cakes, makes it the cheapest soap for everybody and for every want.

Consumers have simply to insist upon having the Queen Lily, remembering that if any substitute is offered it is for the advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is the purest and the best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing laces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the various uses about the house that daily arise requiring the use of soap that is above the ordinary in quality.

For the bath, toilet or nursery it is preferred to most of the soap sold for toilet use, being purer and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap. Respectfully,

NEW ENGLAND SOAP CO.,
Cor. 16th and Utah Streets, San Francisco.

DIPLOMAS HANG IN OFFICE.

CATARRH

Treated upon a new principl, founded upon the fact now generally acknowledged by the most scientific men, that the disease is caused by the presence of living parasites in the tissues. The parasites can be demonstrated by aid of the microscope and will present the appearance given below:

Imagine millions of these tiny, tickling bugs in the nose, and attached to all the mucus membranes of the head, throat lungs, and in some cases the eyes, and the eustachian tubes leading to the middle ear, and you will readily understand the irritation they can produce.

Our treatment, which destroys these parasites, will arrest the worst cases of nasal catarrh and pharyngitis in from a few days to a few weeks. Bronchitis is nothing more than catarrh of the air tubes leading to the lungs. This disease is frequently mistaken for consumption, of which the symptoms are very similar. The large majority of cases can be cured by aid of our new inhalation treatment.

CONSUMPTION.

The symptoms of this disease are gradual and constant increasing emaciation, pale or sallow skin, great debility, frequent flushes of the face, alternating with paleness, without any particular cause or upon the slightest emotion, increased susceptibility to colds. Expectoration yellow, perhaps offensive and streaked with blood. Dry, hacking cough from tickling in the throat, shortness of breath, especially upon going up stairs, chilly sensations, and a pink-red line on the lower gums.

More or less pain and soreness are noticeable about the chest.

Later we have night sweats, diarrhœa, and swelling of the feet.

If you have part of these symptoms do not think it is merely a cold that will soon pass off, but take treatment before the disease is firmly seated, and you can be cured.

In the later stages life can be prolonged, and comfort given to the patient, by aid of our inhalations, which ease the coughing, facilitate expectoration, and promote healthy and refreshing sleep.

Constitutional remedies hasten the cure by building up the system generally, purifying the blood, etc.

The treatment can be used at home without detention from business.

BLOOD DISEASES.

Blood diseases are numerous; they may take the form of scrofula, may cause ulcers, abcesses, different skin diseases or merely pimples upon the face. Sometimes enlarged glands, having the appearance of tumors, are noticed in various portions of the body, especially in the neck and groins. We will guarantee a cure in every case, whether recent, of one, or forty years standing. No mercury is used. Tendency to cancer, as well as cancer in the earlier stages, is entirely eradicated from the system by our blood remedies.

LADIES.

Diseases peculiar to ladies treated with care and discretion. Our teatment is new and pleasant as well as successful in nearly every case.

LADIES' DAYS, Wednesdays and Saturdays.

Certain hours will be granted to individual cases so patients will not be obliged to wait.

GENTLEMEN.

Evenings will be devoted to the treatment of the ailments of men. Have you a lame back, Aching of the bones of the legs, Vertigo, Weakness of Memory, Languor, if so, come and see us and we promise you a sure cure.

The following testimonials will show the rapidity with which we can cure diseases of our specialty. Hundreds of these can be seen at office:

This is to certify that I am a regularly qualified physician, but not practicing, and have always believed catarrh of chronic nasal variety to be an incurable affliction, but hearing of Dr. W. N. Davis' "New Treatment," and his success, I applied to him for medicine and determined to try it in the case of one of my friends, and did so with the most satisfactory results, as improvement was immediate, and one prescription effected a cure. The case was of years' standing and of a very severe type. I can recommend Dr. Davis to those similarly affected. S. HALEY, M. D.
Los Angeles, Aug. 1st, 1885.

January 2d, 1886, Doctor Haley testifies that the case he treated five months ago is still a cure. Doctor Haley is now practicing law at 45½ N. Spring street.

This is to certify that I was troubled for six years with what seemed to be an incurable disease that had resisted the abilities of some of the best physicians of San Bernardino, Los Angeles and San Francisco. I then determined to try Homœopathy and consulted Dr. W. N. Davis, 45½ N. Spring street, Los Angeles, and within two months I was entirely cured. S. S. BALL.
Anaheim, California.

DR. W. N. DAVIS: I have been troubled with catarrh of the dry variety for about five years, since three years before I came to California, and in one month I feel that I have been entirely cured by your remedies.
PETER NIES.
Los Angeles, July 4, 1885. P. O. Box 825.

LOS ANGELES, Sept. 14, 1885.

DR. W. N. DAVIS: DEAR SIR—I beg to acknowledge the benefit I have received from your Homœopathic remedies, which I consider almost miraculous.

I was troubled for three years with a complication of diseases which had baffled the skill of ten Allopathic physicians. Some said that I had "Bright's disease," others "spinal disease," and others "heart disease."

I was troubled with pains all over my body, was confined to the house and was almost paralyzed. Now, after treating with you for little more than a month, I am free from pain, and can walk half a mile without difficulty. I go to church and sit through service with no inconvenience, which I could not do before.

I am still improving in strength and think in a few weeks more I will be a well woman.

Thanking you for what you have done for me, I am yours truly,
MRS. MARY LOUTHAN,
422 South Los Angeles street.

October 20th, 1885, Mrs. Louthan testifies that she is entirely cured.

This is to certify that I have been troubled for four years with Bronchitis, and in six weeks I have been almost entirely cured by Dr. W. N. Davis, and have had no suffocative attacks since I commenced treatment. I can recommend Dr. Davis to any who are troubled with the lungs or throat.
MRS. M. S. STEVENS,
Ninth street, near Pearl.

This is to certify that I have employed Dr. Davis with very satisfactory results, and would recommend him as a physician to any of my lady friends.
MRS. M. J. BUHLER,
Washington street, near Rosedale Cemetery.
Los Angeles, Feb. 2d, 1886.

DR. DAVIS: If it were not for you I am satisfied that I would now be dead with lung disease, which had troubled me for two years, as at the time I commenced treatment last summer I was so low that I could not continue my trip East after starting, and was obliged to return from Mojave. I wish to testify that I was entirely cured in three months, and found your charges very reasonable.
MRS. H. P. MESEREAU,
22 Bernard street.

ORANGE SHIPMENTS.

Rising Seven Hundred Car Loads for the Season.

NEARLY AS MANY MORE TO GO.

Three Trains of About Seventy-Five Cars in Twelve Hours—First Train from San Gabriel.

The orange business of Southern California for this season is one of large volume. Last season there were shipped from here about 1,100 carloads, the largest at that time for any season in the history of this section. Early in the season it was pretty generally held that the shipments of the current year would fall somewhat short of that sum. Large growers like Mr. E. J. Baldwin and Mr. L. J. Rose reported the crop on their trees light. This was considered quite natural as seedling trees bear somewhat irregularly, as a rule producing alternately a light and heavy crop. Last year was a large crop year, and it was nowise surprising that large orchards should show a small fruitage the current season.

The S. P. Company will send from here to-day a train load of over twenty cars from this city, Santa Ana, Pasadena and Orange. The same road takes from San Gabriel station to-day also a solid train of 18 cars, the first ever made up at that station. Of this more anon. The C. S. R'y sent out last night from San Bernardino a solid orange train of over twenty cars, about one-half of which went from this city. This aggregates nearly three-fourths of a hundred cars sent out in less than twelve hours. It is only a few years since that would have been the total sum of shipments for a season. Until last year seventy-five cars would have been a big month's work for Southern California. Last year perhaps no one week witnessed the shipment of so many oranges from this section. Counting the seventy odd cars of last night and to-day the movement of the golden fruit from Southern California this season will amount to rising seven hundred carloads to date. It would probably reach seven hundred and twenty-five. As picking advances the conviction is forced upon the growers and dealers that the crop has been underestimated more or less. Good guessers used to count 1000 cars as the probable supply of the crop this year. It is now manifest that there are more than three hundred cars of the fruit left on the trees. It is certain that five hundred cars still to go is not much above the mark.

As to prices, the season is proving much more satisfactory than any for two or three previous ones. The growers are realizing from $1 to $3.50 per box on the tree. This is partly due to the liberal spirit developed by the transportation companies, who are carrying oranges for $200 per car of ten tons to "The River," in lieu of $300, the ruling rate a year ago. It is but a few years since the price was $600. A saving of $100 per car is of itself a snug amount to go into the pockets of the ranchers of the south end of the State. On 1200 cars it would amount to $120,000. Add to this the saving of "local" rates on top of the through rates, on all shipments from any station excepting Los Angeles, and $200,000 will not cover this addition to the profits of the orange orchards.

But the Protective Union is doing even more than this for the people of this end of the State. It is regulating the shipments and thereby controlling the markets. By the good offices of this Association the several cities of the East have been kept supplied with fruit and with one or two exceptions there has been no glut of any markets. If all the growers were in the Union much more good might be accomplished and their profits increased.

Judged by the view obtained from the present standpoint, orange-growing would seem to be a good business, paying a large profit on the cost of the orchards, or on the prices at which such property is generally held. The lowest possible income derivable from an acre of good orange trees, of mature growth and well cultivated, would be not less than $100 net. That is interest on $1000, as things go, taxes, stability and continuance of the investment all considered. For an acre of fine budded fruit netting the grower $3.50 per box, the income will in exceptional cases rise as high as $500 per acre. There are many citrus orchards in this and adjacent counties which this year will pay all the way from $250 to $300 per acre, net profit.

THE SAN GABRIEL TRAIN,

Mentioned above as going out from there to-day, via this city and the northern route, consists of eighteen cars. It is handled by Mr. S. K. Sewall, and will be, as is stated, the first solid train ever sent from that queenly valley direct. Of it three cars go to Chicago and Louisville, St. Paul, New York, Omaha, Sioux City, Davenport, Attumwa, Lincoln, and seven others whose destination will be fixed later.

Each car bears placards on the side in large letters setting forth the contents of the car, where it was shipped and the destination. Furthermore, the train is trimmed from end to end with flags, wreaths, palms, flowers, shrubs and branches of oranges and leaves in full maturity. The train will be photographed this morning at San Gabriel. An attempt will be made to make the best time on record with this train. As she flies across the continent she will make a flaming advertisement of the country, surpassing any medium perhaps—the columns of the HERALD alone excepted. It is certain these three trains of golden fruit of three-quarters of a hundred cars, 27,000 boxes, holding nearly 5,500,000 of the fruit, wheeling in long lines round the mountains and running straight across the great plains, two by the northern and one by the middle route, cannot fail to create a genuine sensation wherever their flight is observed. The value of the three trains is all of $50,000.

Pasadena.

Gate of the valley—sentineled by mountains
That lean against the blue of you clear sky—
What paths lead up to those enchanted fountains
That feed the lakelet nigh?

What is the charm that lends perpetual summer
To these fine groves—these stately waving palms,
Where the cool rills, that flash in sunshine, murmur,
Praise for the mountain alms?

Thou scene of beauty, framed in granite segments,
What artist, touched with fire from hand divine,
Could reproduce, with earthly tinted pigments,
Such loveliness as thine?

Here Eve and Adam in the twilight linger,
While the old tale in old-time cadence falls!
Decay, stretch not thy gaunt, remorseless finger
To crumble roof or walls!

Gate of the valley, shut thy granite portals
To Sin and Sorrow, that the world may see
Eden on earth, where dwell the happy mortals
Who step to Heaven from thee!

A Quick Recovery.

It gives us great pleasure to state that the merchant who was reported at the point of death by and attack of pneumonia, has entirely recovered by the use of Dr. Wm. Hall's Balsam for the Lungs. Naturally he feels grateful for the benefits derived from using this remedy for the lungs and throat; and in giving publicity to this statement we are actuated by motives of public benefaction, trusting that others may be benefited in a similar manner.

A Walking Skeleton.

Mr. E. Springer, of Mechanicsburg, Pa., writes: "I was afflicted with lung fever and abscess on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King's New Discovery for consumption, which did me so much good that I bought a dollar bottle. After using three bottles, found myself once more a man, completely restored to health, with a hearty appetite and a gain in flesh of 48 pounds." Call at C. F. Heinzeman's drug store and get a free trial bottle of this certain cure for all lung diseases. Large bottles $1.00.

Hanging Gardens Discounted.

The hanging gardens of Babylon have been the theme of historic praise and dispute for ages. It has been contended that the gardens were the outgrowth of fables and had no other foundation, but when an orange grove is taken up bodily and carried twenty-five hundred miles over three mountain chains, in winter weather, from the Pacific Ocean to the inland seas of the continent, the ancient Babylonian gardens shrink into insignificance.

There is now darting over the Sierras, over the cold Cordilleras, climbing the Cimmaron and speeding over the prairies a million pounds of the beautiful trees and plants of the matchless products of Southern California, consisting of orange trees in fruit and in blossom, lemons in blooming and fruiting fragrance, date palms in all their quaint attire, fan palms in their generous broad spreading foliage, and olives in their silver and green, with flowers of delicate hues in perpetual bloom, and fruits of rare excellence and value without limit or stint. The spectacle is sublime and rivals the stories of the Arabian Nights.

It is only in the United States that such achievements can be wrought, and yet they

"Overcome us like a summer cloud
Without our special wonder."

Tired and Languid Women.

How many women there are of whom these words are true. "They feel languid and tired, hardly able to bear their weight on their feet, the bloom all gone from their cheeks, irratable and cross without meaning to be, nerves all upset, worried with the children, fretted over little things, a burden to themselves and yet with no acute disease." What a pity it is. But a few bottles of Parker's Tonic will drive all this away, and relieve the troubles peculiar to their sex.

The Hanlons,

Who have played all over the globe, will appear at the Grand Opera House to-morrow night. They have just ended a successful engagement of two weeks at the Baldwin Theatre, San Francisco. In speaking of the performance, the San Francisco *Examiner* of February 23 says: The Baldwin—The pantomime that comes forth in February is something like the mince-pie that is eaten in September—no matter how good it is, it loses the edge of its relish by being out of season. "Fantasma" is the sort of spectacular pantomime that would put the proper finish to Christmas day, in the opinion of all the children who were taken to it. It was evidently regarded by the audience at the Baldwin last night with an interest in which there was no consideration of seasons, for the house was crowded in every part.

A fairy tale is the basis of the piece, but the story is only a small incident of the performance, while the incidental effects are the paramount interest. Many of these are very ingenious and all work with the utmost smoothness. The majority of them are new applications of old principles, but there are several unique contrivances which go a point or two further than any of the familiar mechanical accompaniaments of pantomime. A series of scenes in the Arctic regions is effective in an artless pantomimic way, and is commendable as a reminder of the Greely survivors, who have been so quickly forgotten by an ungrateful government.

One of the successes of Fantasma last night was a pretty little midget, whose programme age is 5, and whose programe name is Little Aimee. Her songs were received with an uproar of delight. No one is especially prominent in Fantasma except the clown, Alex. Zanfretta, and Miss Davies. The two Hanlons have secondary positions. There is a general glitter and a general smoothness of effect, which make the performance a good one. One may say that for those who like this sort of thing, this will be just the sort of thing they will like.

California Excels in Everything

Abietene is produced from a peculiar pine, and the only place where Abietene can be produced on this continent is on the western slope of the Sierra Nevadas of California. It has great medicinal properties, and combining it with other expectorants in Abietene Cough Balsam, we guarantee it for consumption, bronchitis, sore throat, whooping cough, croup, irritation of the throat and lung troubles. It contains no opium. Price 75 cents. Sold by C. F. Heinzeman.

Fast Time.

The last special fruit train which left the California Southern Railway via the Atlantic and Pacific, and Atchison and Topeka Railroads, made the remarkable run from San Bernardino, Cal., to Kansas City, a distance of 1,743 miles, in ninety-five hours. Thirteen hours of this time were consumed in the examination of the fruit at division points along the line, which would make an average run of over twenty-one miles per hour from San Bernardino to Kansas City. On the A. P. Railroad, between Winslow and Albuquerque, a distance of 286 miles, the run was made in just ten hours (including stops), or about thirty miles per hour. The fruit cars in this line are all equipped with air brakes, and each train is in charge of a special conductor, whose duty it is to examine the fruit at all division points, and also to see that the cars are properly ventilated.—[Albuquerque Democrat.

California's Greatest Product

The greatest product California has yet produced is Abietene and combining it with Yerba Santa, Mullein and other expectorants and Narcotics (without opium,) it makes a remedy that cannot be equaled for consumption, coughs, colds, bronchitis, asthma, hoarseness, pneumonia, any and all afflictions of the throat, chest and lungs. Ask C. F. Heinzeman, for Abietene Cough Balsam and take no other. Price 75 cents.

The Chinese Question.

LOS ANGELES, March 12, 1886.

EDITOR HERALD:—The workingmen of this city owe you a debt of gratitude for your fearless and independent stand on the Chinese question. Your editorials on this vexed question are beyond refutation. Your refusal to publish the pronunciamento of these so-called Christian ministers was a fitting rebuke. Their place is in the church and in the pulpit. Questions of economy or government are beyond their pale. The time has long since passed, thundering down the ages, when people were accustomed to tie their opinions to the coat tails of any clergyman. We are a thinking people, a working people, accustomed to every day life. Upon us rest the burden of supporting church and schools. How well we do it every city, village and hamlet throughout this country attest by the many fine edifices erected to the use of both one and the other. We are taught to love our neighbors as we would ourselves, but no better. Now, the presence of the Chinese is injurious to us in many respects. I need not name them. They are not a Christian people; they never will be. China has reddened her soil with the blood of many missioneries sent there by the money of the very people who in this country would crush the poor laboring man. What matter, provided we are heralded abroad as a God-fearing people. We have heathens nearer home. What fruits, if any, have ever been made in Los Angeles in converting John here with us? We are in an age of progress, and everything that impedes or retards the onward march must be swept away. I am not in favor of violence. I would not harm the little brown man, but I would try what our forefathers tried so effectually at Boston. I would boycott him. Boycotting may sound cruel to over-sensitive people, but it is a measure of necessity—and necessity knows no law. Let any one of these kid-gloved gentlemen who favor the Chinamen, by a small effort of his imagination, place himself in the position of the horny-handed sons of labor, and try and eke out a subsistence, support a family and contribute to church and schools. How long do you think they would endure the position? They would soon find the shoe to pinch and failing to stretch it, they would soon tire of it. Yes, indeed, these namby-pamby people would soon cry out, "How long, oh Lord, how long?" I am afraid they would read Scripture backwards, and it is not the Lord they would be addressing. Continue in the good course you have mapped out. Throw all the light you can on the subject. By so doing you will aid us in removing the anaconda that is sapping our State. You will restore a people their lost inheritance, and future ages shall attest the good work, whilst the people of to-day shall point to at least one paper that money or influence or cajoling could not subserve to their interest. God bless the HERALD in its mission. "HEXAMETER."

Years Teach More Than Books.

Among other valuable lessons imparted by this teacher is the fact that for a very long time Dr. Pierce's "Golden Medical Discovery" has been the prince of liver correctives and blood purifiers, being the household physician of the poor man, and the able consulting physician to the rich patient, and praised by all for its magnificent service and efficacy in all diseases of a chronic nature, as malarial poisoning, ailment of the respiratory and digestive systems, liver disease and in all cases where the use of an alterative remedy is indicated.

What Will Surely Do It.

One's hair begins to fall out from many causes. The important question is: what will make it grow out again? According to the testimony of thousands Parker's Hair Balsam will do it. It quickly covers bald spots, restores the original color when the hair is gray or faded, eradicates dandruff and causes the scalp to feel cool and well. It is not a dye, not greasy, highly perfumed and safe. Never disappoints those who require a nice, reliable dressing.

Governor Mansfield, who was chosen to deliver an address at the Pasadena Citrus Fair, on account of illness has been obliged to decline the honor, and Hon. W. A. Cheney will take his place. It is needless to say that the Judge will make an eloquent and charming speech and the ladies will furnish a free lunch to visiting members of the press.

SHILOH'S CATARRH REMEDY—a positive cure for Catarrh, Diphtheria and Canker mouth. Sold by C. F. Heinzeman, 122 N Main street.

The beverage for the weak and strong, sick and healthy: Ghirardelli's soluble cocoa.

The Orange Market.

The past week has found the Eastern markets all full. California oranges are well represented, and the Valencies have also been largely received, coming as far west as Omaha. The cargoes of imported oranges and lemons have been large and have sold unusually low, on account of coming in competition with our crop.

Imported oranges must sell at auction—the only method of selling cargoes—in New York at $2 40 to realize fair profits to the producers, and as it costs 30 cents a box freight to Chicago, St. Louis and western points, they must sell for $2.70 there by the commission men and brokers. These prices are received for bright, clean fruit, in size running not smaller than 220.

The Union have returns from many agencies showing that they are handling their fruit with good success. The bright, clean fruit received in good condition, and where packed strictly as directed by the Union has gone through in good condition and brought first-class prices.

The Union also enjoys shipping facilities that will more than pay all incidental expenses of the growers shipping through it.

The outlook for the crop remaining unsold is good. The Union officers say at least 25 per cent more should be realized over the already good prices.

Hard Times.

While money is close, wages and prices low, expenses should be cut down in every household. Economy the watch word for mothers, head off doctor bills by always keeping in the house a bottle of Dr. Bosanko's Cough and Lung Syrup. Stops a cough instantly, relieves consumption, cures croup and pain in the chest in one night. It is just the remedy for hard times. Price 50 cts. and $1.00. Samples free, For sale by C. F. Heinzeman agent, Los Angeles.

The Flower Festival.

There is great enthusiasm over the coming flower festival in the surrounding towns, and preparations are making for an exhibit which will far surpass anything of the kind ever before undertaken.

Will not those who have palm leaves, cypress clippings and pot plants which can be used in decorating please send them to the Tabernacle on or after the 24th of the month, that everything may be in readiness for the grand opening on the 30th? Pot plants will receive the best of care and rare specimens will be given prominent places.

Among the pleasant novelties that the ladies of the Flower Festival Society expect to entertain the public with, in the coming carnival, is the floral procession opening the festival.

Flora in her chariot, conducts a large retinue in honor of the return of her beautiful sister, Prosenpine (Spring). The key to nature's heart, it is hoped, will unlock all hidden mysteries which the conservative mother now holds from us. Do not fail to see it.

BOYCOTTING CHINESE MADE

Boots and Shoes and Those who Keep Them.

The undersigned has always believed it wrong to patronize the Chinese shoe factories to the exclusion of our own race and has therefore avoided keeping their make of boots and shoes, often heretofore to my pecuniary disadvantage and loss. But now I have made arrangements with three Eastern factories by which I can furnish good, durable shoes for men at $2.50, $3 and $3.50 a pair that will surpass any Chinese shoe ever made, and as neat fitting and genteel looking as any in the market. Don't forget to come and try them.

A Sensible Move at McDonell's Drug Store, 271 N. Main St.

The enormous profits usually realized by the retail drug trade is an imposition on the buying public and is far in excess of eastern prices. The purest drugs can be sold as low as in Chicago or New York. For instance we will sell you 1 lb. best gum camphor, 25cts.; regular western price 60 cts.

One bottle Hoyt's Cologne 15 cts., regular price 25 cts.

Colgate's Cashmere Bouquet Soap 25c. per cake, regular price 35 cts., and all other goods at genuine eastern prices. Prescriptions at same prices as in New York. Remember, McDonell's drug store in the Rose Block.

Important to Consumptives.

The people of Australia and of the State of California have been astonished at the wonderful curative power of Eucalyptus, or gum tree leaves, for all throat and lung diseases. A preparation called the "Gum Tree Cough Syrup," has rapidly sold all over our State, and is the only cure for a cold, whooping cough, bronchitis, etc., that will not make you sick at the stomach in taking. Relieves violent coughing; soothing to fever and all irritation. C. F. Heinzeman, sole agent, Los Angeles.

TAKE SIMMONS LIVER REGULATOR

For all Diseases of the Liver, Kidneys, Stomach and Spleen.

This **purely vegetable** preparation, now so celebrated as a Family Medicine, originated in the South in **1828**. It acts **gently** on the **Bowels** and **Kidneys** and **corrects** the action of the Liver, and is, therefore, the **best preparatory medicine**, whatever the sickness may prove to be. In all common diseases it will, **unassisted** by any other medicine, **effect a speedy cure.**

The **Regulator** is safe to administer in any condition of the system, and **under no circumstances can it do harm.** It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will **promote digestion, dissipate headache, and generally tone up the system.** The dose is small, **not unpleasant**, and its virtues undoubted.

No loss of time, no interruption or stoppage of business while taking the Regulator.

Children complaining of **Colic, Headache**, or **Sick Stomach**, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, will expel the poison and protect them from attack.

A PHYSICIAN'S OPINION.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system. The following testimonial concerning the Randolph Header explains itself:

RIVERSIDE, CAL., November 20, 1885.

Messrs. Truman, Isham & Hooker, San Francisco:—GENTLEMEN—We bought two Randolph Headers in 1884, one 12-foot cut and one 14-foot cut, and during the wet season of 1884 we headed for Geo. Dobyns 1100 acres where all other machines failed to do any of the work. The grain had fallen down, and we headed 400 acres in two weeks, which speaks volumes for this machine, especially in this kind of grain. We have cut where the Hodges-Haines and all other makes failed to do anything. We recommend the Randolph to all others, as this is a fact, and we will cheerfully answer any correspondence or questions to the above. Yours respectfully, BEN FUQUA & DOBYNS.

FINANCIERS' VIEWS.

The Messrs. Seligman on Industrial Matters.

AN ERA OF IMPROVEMENT.

The Building of Railroads, and Increase of Confidence in the Public Mind.

Learning that Mr. Jefferson Seligman and his cousin, Mr. Alfred L. Seligman, of the great banking house of the Seligman's in New York City, were at the Pico House, a HERALD reporter sought the gentlemen out, and was accorded an interview, the results of which cannot fail to be of interest to the people of Los Angeles.

Making known the object of the visit, Mr. A. L. Seligman, with great modesty, said:

"Why, we are almost entire strangers to your State and city. I have been in San Francisco about three months, and my cousin has barely arrived. We can scarcely say anything of any public importance."

Reporter—"Mr. Seligman, it is regarding industrial matters he East I wish to learn something from you, because I know that your position on Wall street puts you in constant contact with the industrial pulse of the country, and that the pulse is always strong or weak, as the industries of the country are healthy or indisposed."

Mr. A. L. Seligman—"Well, if I know anything that will interest your people in that regard I shall be glad to tell you, and my cousin, who will be in in a moment, will, I am sure, be pleased to contribute any points of importance you may wish to interrogate him on."

Reporter—"Then, Mr. Seligman, how are the industrial conditions of the country as compared with the past?"

Mr. A. L. Seligman—"The industries of the country are better than they were, much better. We find more general confidence abroad. There is a better demand for money, and also for all sorts of securities. The depression has been severe, but it is over, and the country is now in a healthy state—Ah, here is my cousin, who I think will bear me out."

Here the gentleman entered with his newly married bride on his arm. The pair are very tall and comely proportioned. Readers of the HERALD will remember it was stated in these columns yesterday morning, that she is the only child of Mr. Isidor Wosmer, another millionaire banker of New York. The lady is as remarked above, tall, graceful, of quite queenly grace of form. The lines of the English poet Tennyson could not fail to suggest themselves—

"A daughter of the gods, divinely tall,
"And most divinely fair!"

The purpose of the visit being stated and what had been said briefly sumarized, Mr. Jefferson Seligman said:

"Yes, I am quite of that opinion. I have come from Wall Street but a few days since, and perhaps can speak more in detail than my cousin, who has been out here a few months. The improvement is most marked in railroad matters. All good mortgages are being sought after. Now, take any of the several trunk lines—let us say the St. Paul, the Atchison, Topeka & Santa Fe, or the Pennsylvania—the advance in all such securities is from 20 to 30 per cent. advance over the prices ruling previously. All the roads are building new spurs out from the trunks in all directions. There are no new trunk lines building anywhere, but all the old lines are building numerous small branches out into good territory, opening up rich bits of country and adding to their business and earnings. Then again, the people have acquired confidence in things. Every sort of property has been too low. People have been absurdly timid. Now they are beginning to find this out, and they are looking for property in which to invest. Why, in a country like this, with all its undeveloped resources, it is surely absurd to have money going at 1 per cent as it has been doing. There are "United States fours" selling at 127½, that is about 2½ per cent. There is no good reason for this. But it is over. Things are much better. The outlook for the future is good. Manufactories are all at work and the people employed. Merchants are taking hold and buying goods. Notes of improvement are everywhere."

Mr. Alfred L. Seligman here remarked:

"On this coast you do not know much of this matter. There has been very little depression here. San Francisco feels a little just now of what New York and other Eastern cities have felt severely. But in San Francisco there is a good undertone of confidence, and all feel that the trouble is merely temporary."

Both gentlemen said many flatteringly kind things of their impressions of this State. Los Angeles they expressed unstinted admiration of, and confidence in its future.

The supply of labor here and at the East was touched upon and the development of the State. Mr. Jefferson Seligman said in this connection: "The train we came on in brought over two hundred people here to settle in California. The East all wants to come to this coast. Those coming are the better classes of our population. You will send us some back, but you will gain in both the numbers and the quality of the exchange. The people who leave here to return East to remain will be largely a worthless class. You will get some like them in return, but in the main the people who are coming out here are of our best citizens."

The Chinese problem was touched, both of the gentlemen expressing an undivided opinion as to the Restriction Act, and the necessity of its being rigidly enforced. They asked the reporter to give them an outline of the objections found here to retaining those already in the country, which was done.

Both the gentlemen suggested what has been often said here before, by others, that part of this surplus Chinese population could find a place in large cities in the East, where, on account of their comparatively small ratio to the rest of the population, their presence would hardly be felt.

Many other matters of general interest were touched upon, which a crush of news in these columns crowds out today. The gentlemen will remain here a few days visiting Sierra Madre Villa and other points of interest.

For a time yesterday after the slight fire on Sixth street there was wild excitement caused by the report that a magnificent Guillaume goat belonging to the firm of Masters Eltinge Smith, Allie Glassell and Willie Desmond had perished in the flames. Such, however, proved not to be the case and the firm still retains its choicest possession.

Captain Froelich is employed by a large number of business men to act as a private watchman at night. Yesterday morning while trying the Turf Club saloon door, his revolver fell out of his pocket, striking the sidewalk so as to discharge it. The bullet passed through the heavy plate glass and through a screen, landing in the ceiling. He was arrested but immediately released by the Mayor, who informed him that he had no right to carry a concealed weapon.

FOR THE CITRUS FAIR.

A Liberal Offer From the Southern Pacific.

A. F. Kercheval of the Pomological Executive Committee, devoted last week to canvassing the foot hills and upper valleys from Canada to Pomona in the interests of the forthcoming Citrus Fair. He reports the best of feeling on the part of the fruit growers towards the project and they will bring out good exhibits. A more particular account of his trip appears elsewhere.

Mr. Kercheval is in receipt of the following letter, which explains itself.

MR. A. F. KERCHEVAL, Chairman Executive Committee Los Angeles Pomological Society: DEAR SIR—Replying to your favor of recent date relative to free transportation of fruit intended for exhibition at the coming Citrus Fair: We will take pleasure in meeting the wishes of your society in the matter, and transport such exhibits of fruits as may be shipped from points in Los Angeles county, to Los Angeles for exhibition purposes free. While we do not anticipate that our action in the matter will be taken advantage of by any one to secure free transportation of products intended for sale, believing the character of the people engaged in the exhibition is such that they will not countenance any attempt of this kind. I will request that all exhibits be consigned to the Los Angeles Citrus Fair, in care of the manager, giving his name, and that the receipt to the company's agent therefor. Yours truly,
E. E. HEWITT,
Division Superintendent.

A Big Swindle.

Our citizens are daily swindled by jewelers, crockery and hardware stores who pass off Rogers Bros.' spoons, etc., marked XII., for triple plate, while they are only single, with a sectional addition. Also in spectacles a swindle is going on, our citizens paying for pebbles and receiving only glass. Buy none until they are put under a pebble tester. Also by the auction swindles, by which the town is flooded with trash—6 and 8 carat watches, warranted solid gold, while they are only one-third gold; poor nickle watches that never will run. Let our citizens be warned. There are many other swindles in connection with our business—in watch and jewelry work, which shall secure due attention. It is our aim to build up a square business—such an one as we carried on in Pittsburgh, Pa., eighteen years, and in Minneapolis, Minn., for four years, and "sink or swim" the Opera House Jewelry Store will follow this line, keeping one price; and where a child can purchase as safely as an expert, and get good goods at the lowest prices. Our leaders are Gorham's sterling silverware, Rud & Barton's triple-plate ware—finest in the country. In spoons, forks, etc., we will keep the Gorham quadruple goods, which are the finest in the world. We shall aim to keep the largest and finest stock of diamonds, watches, silverware, jewelry, French and American clocks; spectacles and optical goods.

The REAL ADVANTAGES —OF A— Department Store.

What is a Department Store?

THE QUERY—"What is a Department Store, will be asked by many not thoroughly versed on the subject. We can answer more easily by simply saying:

"The People's Store is a Department Store."

Or in other words it is a store where each separate line of goods is kept in a distinct depart—where each depart has a distinct head or principal sales person, whose duty it is to act in the same relation in this department as the owner does over the entire store. He sees that patrons are well served, orders goods, weeds out unsalable stock and aims that the department is not backward in sales, for each department is rated how much MUST BE sold, and if the amount is not sold and the sales are backward, runs MUST BE MADE and GOODS MUST BE SOLD to bring the sales up to the proper standard.

Therefore many advantages to the purchaser constantly occur when we make these runs. Prices are no object; the amount of sales must be made up and the buyers get many bargains. This is one of the real advantages of trading with a department store.
